

CBD for Everyone!

Using a proprietary extraction process and a strain of high-CBD hemp grown in a secret, foreign location, Colorado's Dixie Elixirs and Edibles now offers a new product line called Dixie X, which contains 0% THC and up to 500 mg of CBD. This new CBD-rich medicine will be available in several forms, including a tincture, a topical and in capsules.

Promoted as "a revolution in medicinal hemp-powered wellness," the non-psychoactive products will first roll out in Colorado MMCs (medical marijuana centers), with

plans to quickly expand outside the medical-marijuana market.

"It has taken a tremendous amount of time, money and effort, but finally patients here in Colorado—and ultimately all individuals who are interested in utilizing CBD for medicinal

benefit—will be able to have access to it," says Tripp Keber, Dixie's managing director. "We are importing industrial hemp from outside the US using an FDA import license—it's below federal guidelines for THC, which is 0.3%—and we are taking that hemp and extracting the CBD. We have meticulously reviewed state and federal statutes, and we do not believe that we're operating in conflict with any federal law as it's related to the Dixie X [hemp-derived] products." ❁
